

**Listing and Amendments to the Claims**

This listing of claims will replace the claims that were published in the PCT  
Application:

Claims 1-7 are cancelled.

8. (new) RF unit comprising a tuner, a demodulator and a mixer, wherein the tuner or the tuner and the mixer are arranged on a first substrate and the mixer and the demodulator or the demodulator are arranged on a second substrate, wherein the RF unit further comprises a housing having a single frame at least partly accommodating the first and/or second substrates, wherein the first and second substrates are arranged on respective different levels, and that means are provided to maintain a predetermined distance between the first and the second substrate.

9. (new) RF unit according to claim 8, wherein connectors are provided, connecting the first and the second substrate.

10. (new) RF unit according to claim 9, wherein the connectors are provided along at least one side of the respective first and/or second substrate in an essentially linear arrangement.

11. (new) RF unit according to claim 8, wherein the means maintaining a predetermined distance between the first and the second substrate include the connectors.

12. (new) RF unit according to claim 8, wherein the housing is shielding electromagnetic radiation.

13. (new) RF unit according claim 8, wherein the first and the second substrates are separated by an intermediate shielding.
